

# Ways to Save with SmartHours®

for Business

**OGE**

**We Energize Life**

## COOLING (41%)

Pre-cool your business by lowering your thermostat before peak hours, then raise it by 2-4 degrees at 2 p.m.

See if you're eligible to receive incentives for installing energy-saving HVAC controls at [OGE.com/BusinessEE](http://OGE.com/BusinessEE)

Use ceiling and floor fans to help circulate air for more comfort

## OPERATIONAL LOAD (29%)

Schedule refrigerator and freezer stocking during off-peak hours

Charge forklifts during off-peak hours when energy is discounted

## ALWAYS ON (16%)

Turn off lights, computers, and monitors when not in use during peak hours

## OTHERS (14%)

Use Energy Insights during the SmartHours season to see how much electricity your systems use and how to save

Average Business Energy Use during Summer Peak Hours (Weekdays, 2 - 7 p.m.)
